

LPC11xx Definitions

LPC11xx Universal Asynchronous
Receiver/Transmitter

```
graph RL; A[LPC11xx Universal Asynchronous Receiver/Transmitter] --> B[LPC11xx Definitions];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow pointing from right to left. The box on the right is shaded gray and contains the text 'LPC11xx Universal Asynchronous Receiver/Transmitter'. The box on the left is white and contains the text 'LPC11xx Definitions'. The arrow indicates that the definitions are used by or derived from the driver code.
